Our service follows
wherever you go

Companies' Incorporation in Other Onshore Countries

With the further implementation of the Belt and Road initiative, more and more Chinese companies are going out. Through expanding our overseas service network, we can handle various companies' setting up in Southeast Asia, the United States, Europe, Australia, Japan, Singapore and other countries. These companies normally ask for the real address, the paid in capital and the actual employees, every country's details are subject to specific criteria.

Outsourced Licensing and Compliance Services to Group Company

With the growing strength of Chinese companies, many group companies have established a number of subsidiaries and branches all over the world. The certificates and compliance management of these subsidiaries and branches are often handled by local administrative teams. Problems such as unprofessional management, improper change and incomplete historical records often occur, small administrative errors can lead to many big transaction cases missed opportunities. Yes, through our overseas partners' network in more than 200 locations around the world, we can provide global licensing and compliance services to China's group companies. All subsidiaries and branches' licensing and government compliance work is carried out with headquarters by one real-time service provider to reduce management oversight and strengthen the storage and maintenance of historical documents.

Our services cover all parts of the world. We provide bilingual services to foreign customers. For long-term customers who use our back-end services, we provide them with access to their own company information and documents we store in the Cloud remotely by computers or mobile phones.

If you are interested in the above services, we would be delighted to assist and provide with further service documents, please feel free to contact us.
